THE WEDDING COLLECTION

Personalized scent experiences for the entire celebration

WHAT WE CREATE

A beautifully coordinated scent program that can begin with the bachelorette weekend and continue through the invitation, welcome, wedding day, guest gifts and morning after. Choose one of our wedding collections or create something completely custom for the couple, property or destination.

WHY IT MATTERS

Scent makes a wedding feel personal, creates an emotional connection and gives guests something beautiful they will actually use. For hotels, resorts, spas and planners, it is also an elevated package enhancement and an additional revenue opportunity.
