SPAS, RESORTS + HOTELS
with wellness

INFO@THESMELLYSASQUATCH.COM

From one
spa lover
to another...

The Smelly Sasquatch is a natural and organic, artisan, high-end essential oil company. We are a bit of a "snob" when it comes to essential oils and only use the best. We are involved in every part of the creation process of our products and source only from farmers we know well and trust. Everything is wildcrafted and/or organic and you can feel and smell the difference. We take helping people, wellness and providing healing and relaxing experiences for others very seriously.

WE KNOW ESSENTIAL OILS CAN BE CONFUSING AND OUR COMPANY STRIVES TO MAKE THEM EASY FOR CONSUMERS, ESTHETICIANS, AND THERAPISTS TO USE.

We are in 19 states and counting. We have close relationships with our buyers and customers and know your success is our success.

We are a husband and wife team and as corny as it sounds, we do everything with love. Traveling, going to the spa and staying at high end hotels is our favorite thing to do as a couple so it means the world to us to create products to help others do the same.

Love, Shawna + John

VIBRO-ACOUSTIC SOUND TABLE

POPULAR

Our state of the art vibro-acoustic sound healing tables are a therapeutic equipment designed to deliver sound vibrations directly to the body bringing frequency healing to the next level. The sound table integrates low-frequency sound waves through a solid surface (6 foot massage table) to provide a deeply relaxing and healing experience. The sound waves resonate through the table, creating vibrations that interact with the body's muscles, tissues, and nervous system. Your clients will never forget you.

Why your spa needs this:

- These tables are unique and are not the typical thing found in *every other spa*
- They are "contactless": you do not need a practitioner to lead this service which makes it a flexible + easy, profit generating service for your spa to offer
- The table works as a compliment to any wellness service: it can be provided as an "add on", a service on its own, a signature service using sound frequency combined with other services or spa amenity offering
- You can use our frequency playlists focused on topics like pain relief, anxiety, stress, inflammation, depression, detox and more or you can make "fun" services incorporating playlists with rock, jazz or even pop artists! Custom playlists connected to signature services available.

How it works: Clients lay (completely clothed) on the sound table. They simply choose the play list they want to listen to, put on the headphones, press play and lay back and relax. A timer is set to let them know their service is complete.

What it does: Sound tables promote many benefits some including:

- enhancing the body's natural healing processes.
- activating the parasympathetic nervous system, reducing stress and promoting calm
- easing muscle tension
- reducing inflammation.
- enhancing focus
- reducing symptoms of anxiety and depression.
- regulating sleep patterns through calming effects

\$6500 a table, includes signature playlist. Additional playlists available.

HEALTHY “PILLS” AFFIRMATIONS

When I got myself off my anti-depressants the first few days I felt weird leaving my house without taking a pill. I was dependent on that pill and thought I might have a panic attack if I didn't take it. I knew I didn't need the pill, but I tied peace to the ritual, so I created my own “pills” to mimic the same ritual without the medication. I wrote positive affirmations, rolled them up and stuffed them into my empty Lexapro bottle. Each morning I would put on my essential oils and take a “pill” swallowing down its motivation. It's been a decade now and I've never looked back! These healthy “pills” are hand-made created to help people as they helped me way back when. They are a special gift for yourself or loved one to inspire them to stay positive. They are non-medicinal and contain small, rolled-up notes with positive affirmations used to encourage and support daily self-care. **\$10**

Available in:

Mind Capsules: used to manage stress+ anxiety and cultivate a sense of calm while uplifting mood

Money Capsules: used release lack thinking and attract wealth (I used this one later and now have two very successful businesses).
