# AROMATHERAPY B A R

Set up an aromatherapy bar as an extra amenity. Place as an extra amenity in the spa or create a special, relaxing area in their lobby, gym or somewhere on the grounds to invite guests to experience relaxation through the power of scent. We build the bar to the size that fits your hotel's needs (we have done as small as the size of a bed tray and large as a 20X20 space). The sky is the limit + we create the vision together based upon your clientele and brand.

The aromatherapy bar is a self-service bar where guests can sample + experience various essential oil blends + sprays to evoke healing + inspiration for common travel discomforts including but not limited to: sleep issues, jet lag, anxiety, digestion issues, headaches, aches + pains, + more.

- Sell these blends for extra revenue.
- Host special events with a "health-tender" to put guests through an aromatherapy experience (the wellness equivalent of wine tasting!).
- Provide classes where students are educated on essential oils + can create their own scents (We can certify your staff to lead these).
